LOVE LOVE

Love, love, love oh what feeling is ...
Love, love, love oh what feeling is love

Early morning I get up
Going to downtown
In the bus stop I found a girl
To put inside
Inside Rub it Rub it push it Push it
Love at start,
With Love, love, love oh what feeling is ...
Love, love, love oh what feeling is love

Love is a feeling gonna break you heart
No matter colour, sex or religion
With Love, love, love oh what feeling is ...
Love, love, love oh what feeling is love

Double J

She's smoking a cigarette
everyone is looking her
is she moving by the money or just playing?

She knows that she can bring you what you want
And she know that this could make you go wrong
Wanna tell yuh one thing
Wake up of this dream now

She has betrayed her mother
She has betrayed her father
She has betrayed her friends but no

Don't let her smile come into your life
Because she'll steal you and then put yuh aside
Wanna tell yuh one thing
Wake up of this dream
Jenny is the kind of girl
That seems to love you and brings you to the end

Baby face

Pretty face makes me feel like mad,
When I saw you in a big backyard,
Ahead or better for your back,
Pretty baby I'm gonna to try so hard

I need you in my dreams whole night
I want you in my life till die
You are the colour in my paint
Your face makes me feel like mad

I'm gonna try everyday
Be your man
I will never surrender for you
No matter where you are
I'll be there
Always will be with you

Pretty face makes me feel like mad,
When I saw you in a big backyard,
Ahead or better for your back,
Pretty baby I'm gonna to try so hard

I'm gonna try everyday
Be your man
I will never surrender for you
No matter where you are
I'll be there
Always will be with you

Pretty face makes me feel like mad,
When I saw you in a big backyard,
Ahead or better for your back,
Pretty baby I'm gonna to try so hard
